Close Below, you will find a wide range of our printable worksheets in chapter Conventions of Standard English of section Grammar. These worksheets are appropriate for Fifth Grade English Language Arts. We have crafted many worksheets covering various aspects of this topic, verb tenses, conjunctions, inappropriate shifts in verb tense, correlative conjunctions, perfect verb tenses, interjection / prepositions, commas: items in a series, comma usage within sentences, using commas to separate the introductory elements, using titles in text, grade-appropriate spelling words, and many more. We hope you find them very useful and interesting. A brief description of the worksheets is on each of the worksheet widgets. Click on the images to view, download, or print them. All worksheets are free for individual and non-commercial use. Please visit Grammar to browse more worksheets in the same area. View the full list of topics for this grade and subject categorized by common core standards or in a traditional way. We have over 300 English worksheets for year five children. They have been designed to mirror the year five literacy curriculum in an engaging way. Our worksheets cover every area of the literacy syllabus for year five including Spelling, Grammar, Punctuation, Writing, Reading and Comprehension. Below you can see a selection of our worksheets. Some of these are downloadable, others are only available within one of our courses. Full answers are provided within all our courses but are not provided with individual worksheets for free download. Our Primary School courses which are adapted to suit the level of your child are now available. To find the course which is right for you use the course finder. Free year 5 English worksheets to download - no registration needed Sentence matching - Sentence level work is a crucial part of year five skills development. This is one example of worksheets that we feature throughout this level. Essential Spelling - During key stage two children have to develop a wide vocabulary and excellent spelling skills. Part of that process involves mastering the words specified in the syllabus. These sheets focus specifically on these words. The sheets teach spelling but also use the words to enlarge vocabulary. Similar words - A wide vocabulary will naturally include a number of synonyms or near synonyms. Children with a good knowledge of synonyms tend to be able to express themselves better when writing. This worksheet is part of a series which develops learning in this area. Other worksheet examples included as part of year five English courses Homophones 9 - Throughout year 5 we help children to develop a wider vocabulary which is one of the most difficult learning challenges they will face. Books tend not to deliver this very well Linking ideas- Use of conjunctions in writing. Helping a child to develop their writing skills requires the development of lots of sub-skills. In this case we look at how to help children use conjunctions better. Collective nouns - This is always a talking point and children enjoy learning these collective nouns and will use many of them in their writing. Spelling patterns - Spelling patterns are an essential part of every child's learning journey- or should be. These year five worksheets ask children to learn the spelling of a group of words which share the same spelling pattern. Subsequently we then test how well words have been learnt using a number of fun tests and ask children to widen their vocabulary by discussing synonyms and antonyms for these words. Find the mistakes - Lots of children need help when it comes to writing accurately. These worksheets are universally adored by children. They become the teacher and are asked to find the mistakes made by a mythical pupil. Over time these sheets really help children to deliver more accurate work. Comprehension - Butternut squash soup. Comprehension is included in very part of our year five courses. This worksheet looks at instructions to make soup. Others will be stories or passages about historical events or poems or a piece about a scientific topic like our star system. Use of apostrophes - Apostrophes are an area of particular focus in year five. Children particularly get confused about possessive apostrophes so we spend a considerable amount of time on this through both introduction and exercise worksheets and through revision worksheets. Find out which course is right for your child. Skip to main content Our grade 5 grammar worksheets continue our coverage of the parts of speech (verbs, pronouns, adjectives, adverbs, prepositions, interjections, conjunctions) and writing of proper sentences, with additional focus on improving the quality of writing and avoiding common errors. Grade 5 Grammar Worksheet Most people, most years, have given up on their resolutions by about mid-January. In order to give you a better chance, I'm offering the following techniques below in worksheet format. -> Scroll down to continue reading article -> Scroll down to continue reading article -> These techniques will help with any goal - from losing weight to pursuing a promotion to starting your own business. By having a worksheet like this to reference throughout the year, you're going to have a better shot to stay on track and make your mark in the year that has just arrived. -> Scroll down to continue reading article -> Scroll down to continue reading article -> Now, remember: this is a worksheet and not an article (per se). So you have to...you know...do the work. -> Scroll down to continue reading article -> -> Scroll down to continue reading article -> Your New Year's Resolution Worksheet First, write out your resolution here. Make it as specific as you can (i.e., "lose ten pounds by May 31" instead of "get in shape this year"). Just writing your goal down makes it more likely you will achieve it. Congratulations! Write down the payoff for achieving this that appeals to your values and emotions. For example, if you want to quit smoking, your compelling reason might be "I want to be healthy enough to dance with my 9 year old daughter when she gets married in about 20 years." How will you remind yourself of this reason? (Perhaps a picture of your daughter, or a woman in a wedding dress, in your office.) Let's anticipate trouble and head it off. What is the "payoff" from not changing? For example, smokers get a certain number of social breaks with their smoking buddies everyday. Or perhaps you put off a project that feels "difficult" or "overwhelming." How can you get that payoff another way? Maybe you take a walk with a friend, or get a coffee, instead of having a smoke. What are the actions you need to take to realize your goal? Attach deadlines if appropriate. (Did you just freak out? If so, look back to question #2 for moral support!) What is the next step you can take towards your goal? When will you have this completed by? (Did you freak out again? Look back to question #2 for moral support as often as you need.) Who do you have to be to make this goal? What kind of person? How will you create accountability for realizing your goal? (Check all that apply.) I will check in with a friend (please note who and how often). I will create a chart / schedule (please note where & how often you will use it). I will create a reminder on my calendar / PDA / computer. I will tell lots of friends and acquaintances (Who or how many? By when?). My hope is that you use these techniques to create a rewarding career and personal life this year. Please feel free to pass along to friends or colleagues who may benefit from them. Good luck on your new year's resolutions and goals! -> Scroll down to continue reading article -> -> Scroll down to continue reading article -> Featured photo credit: Green Chameleon via unsplash.com -> Scroll down to continue reading article -> -> Scroll down to continue reading article -> Live worksheets > English Finish!! Close We're your National Curriculum aligned online education content provider helping each child succeed in English, maths and science from year 1 to GCSE. With an EdPlace account you'll be able to track and measure progress, helping each child achieve their best. We build confidence and attainment by personalising each child's learning at a level that suits them. Get started The term Standard American English customarily refers to a variety of the English language that's generally used in professional communication in the United States and taught in American schools. Also known as Edited American English, American Standard English, and General American. Standard American English (SAE or StAmE) may refer to either written English or spoken English (or both). "Standard American English is not a myth," say linguists William Kretschmar and Charles Meyer, "but it is not identical with the language of any natural population of speakers; it is a very real institutional construct that has attracted the loyalty of a committed group of speakers who claim that they speak it" ("The Idea of Standard American English" in Standards of English, 2012). "The notion of a widespread, normative variety, or 'standard dialect,' is an important one, but it is not always easy to define in a precise way, especially for English. . . . "In the United States, we don't have a language academy, but we have many grammar and usage books that people turn to for the determination of standard forms. The key words in this definition are 'prescribed' and 'authority' so that the responsibility of determining standard forms is largely out of the hands of most speakers of the language. . . . "If we took a sample of everyday conversational speech, we would find that there are virtually no speakers who consistently speak formal standard English as prescribed in the grammar books. In fact, it is not unusual for the same person who prescribes a formal standard English form to violate standard usage in ordinary conversation."(Walt Wolfram and Natalie Schilling-Estes, American English: Dialects and Variation, 2nd ed. Blackwell, 2006) Standard American English Usage"Standard American English usage is linguistic good manners, sensitively and accurately matched to context--to listeners or readers, to situation, and to purpose. But because our language is constantly changing, mastering its appropriate usage is not a one-time task like learning the multiplication tables. Instead, we are constantly obliged to adjust, adapt, and revise what we have learned."(The Columbia Guide to Standard American English. Columbia University Press, 1993) Standard American English and Social Power"Standard American English is not a variety of English that is inherently 'standard,' or better, or more beautiful, or more logical than other forms of English. What makes it standard is that some speakers of American English have the social power to impose the variety of English they happen to use on speakers of other varieties. They are in a position to make their English the prestigious form of English. They can do so thanks to their social power. Since this social power is desired by other people, the English spoken by people with power is also desirable for others. In this sense, the possession of the prestigious variety is the possession of social power."(Zoltan Kovecses, American English: An Introduction. Broadview, 2000) Standard American English Pronunciation- "StAmE pronunciation differs from region to region, even from person to person, because speakers from different circumstances in and different parts of the United States commonly employ regional and social features to some extent even in formal situations."(William A. Kretschmar, Jr., "Standard American English Pronunciation." A Handbook of Varieties of English, ed. by Bernd Kortmann and Edgar W. Schneider. Mouton De Gruyter, 2004)- "As for pronunciation, Standard American English is best defined as the avoidance of pronunciations associated with particular regions or social groups."(William A. Kretschmar, Jr. and Charles F. Meyer, "The Idea of Standard American English." Standards of English: Codified Varieties Around the World. Cambridge University Press, 2012). Also see:
